

The VALE
Social Studies Vocabulary Lesson
DSU | FA18
September 28th, 2018.

Student Name: Kelly Michel

Standard: 3.G.1.2 Locate the seven continents, four oceans, and major physical features and regions of the United States on a map or globe

Objective(s): Students will be able to define keywords about the features you would find on a map.

Introduction: Good afternoon class! My name is Miss Michel and I am very excited to teach this lesson today. Before we get started, I would like to go over some class expectations.

1. If you would like to talk, raise your hand.
2. When I am talking, you are listening.
3. Be respectful of others.

Now, let's start today's exciting geography lesson.

Activity: Frayer Model (See below for the Frayer boxes to fill out for each of your 4 words)

Closure: So today, we learned about different features that you can find on a map or globe. I ask that you now work on these words so that you can remember them and tomorrow we will work on finding these on a map!

Word: Ocean	
Definition	What it is NOT
The whole body of salt water that covers nearly three-fourths of the surface of the earth	Lake River Pond
Sentence with word	Illustration
I am scared of the ocean because it covers so much area.	A large body of water with a sandy shoreline A globe with the ocean labeled
